

NAPUD's country network partner, PKNI organized an FGD with the Narcotic Police, Social Service and Public Health Office, Government Rehabilitation Center, AIDS Commission, PUD community representatives, Women's Voice, and AKSI Keadilan. This discussion was focused on restorative justice for PUD in the legal processes and to establish a multi-sectoral partnership.

The purpose is to have various choices of affordable and qualified treatment for PUD when facing legal issues but they fit the criteria to refer to rehabilitation instead of prison.
